The C-STEM Center invites you to become a volunteer for our annual C-STEM Day, benefiting K-14 STEM education. Volunteers can help coordinate the event, create challenges for the competition, judge the competitions and assist during the event. We will be needing Coordinators, Judges, and Event Volunteers. Your volunteer work will help assure the success of C-STEM Day.

For more information, please visit our website at c-stem.ucdavis.edu/getinvolved/volunteering.

Sponsors/Donations:
The C-STEM Center invites you to become a sponsor or to donate for our annual C-STEM Day to benefit computing and STEM education.

2015 C-STEM Day

About
The C-STEM Day is split into two events, Math Programming Competition and RoboPlay Competitions. The UC Davis Math Programming Competition provides students in secondary schools with the opportunity to apply their fundamental computer programming skills in mathematics concepts. The goal of the RoboPlay Competitions is to broaden student participation in computing, science, technology, engineering, and math (C-STEM) education with positive youth development for all students. The teamwork involved in the RoboPlay Competitions engages all students and allows them to develop their critical thinking and collaborative skills.
