C-STEM 2 Day Institute on Integrated Computing and STEM Education

The C-STEM 2 Day Institute on integrated computing and STEM education provides teachers with hands-on experience on how to use freely available C-STEM Studio and RoboBlockly as well as C-STEM integrated curriculum with interactive computing and robotics for their classroom teaching. The academy is targeted at grades 5 – 12 and community college STEM teachers, as well as math/CTE/Science coordinators, who are interested in:

- Integrating Computing & Robotics into Math courses aligned to Common Core Standards
- Integrating Computing & Robotics into Science courses aligned to Next Generation Science Standards
- Offering computer programming and/or robotics courses in your school
- Offering robotics in after school or summer programs in your school, district, and county
- Developing students’ critical thinking and problem-solving skills
- Implementing new teaching strategies and collaborative learning
- Working to close the achievement gap
- Preparing students to be career and college ready
- Working with gifted students to challenge them to solve real-world problems
- Engaging at-risk students with hands-on learning
- Programming Lego Mindstorms NXT/EV3 using C-STEM Software

For more information, please contact James Gappy, Professor, Computer and Information Science at: Jgappy@sdccd.edu or (619) 388-2641

Date:
Saturday - Sunday
December 3 - 4, 2016
8:30am - 4:30pm

Location:
San Diego Mesa College
Room S304 (TB Confirmed)
7250 Mesa College Dr
San Diego, CA 92111
