

# CALL FOR VOLUNTEERS

**2018 Manufacturing  
and Automation**

**RoboPlay™**

**MAY 19, 2018**

## What is RoboPlay?

The RoboPlay Competition is a culminating event for the C-STEM program with curriculum-based RoboPlay Challenge and Video Competitions to further engage students in project-based team activities to showcase their accomplishments and creativity in not only math and engineering, but also in writing, art, music and film production.

## What does a volunteer do?

Volunteers assist in judging the RoboPlay Video and Challenge competitions, guide students through their process, and help the C-STEM staff ensure the day is run smoothly.

## Interested in volunteering?

The success of previous RoboPlay Competitions can be contributed to the generous time given by teachers, parents, and community members. To be a part of the continued success, please sign up to be a volunteer today. To learn more or become a volunteer please contact us.
