C-STEM 2-Day Workshop on Integrated Computing and STEM Education with Arduino and Robotics

This C-STEM 2-Day Workshop will provide K-14 teachers with hands-on experience on how to use freely available C-STEM Studio and RoboBlockly, as well as C-STEM Math-ICT curriculum with interactive coding, making, and robotics that aligns with the Common Core Math, NGSS, and ICT Sector standards to develop students’ 21st century problem-solving skills and better prepare students for college and careers. Whether or not you have previous coding and robotics experience, you will enjoy the workshop enormously. This workshop focuses on:

- Providing computing education utilizing user-friendly RoboBlockly, computer programming in C/C++ interpreter Ch, and Barobo Linkbot or popular Lego Mindstorms NXT/EV3
- Implementing new teaching strategies and opportunities for personalized and collaborative learning through hands-on activities
- Adopting Common Core Math compliant curricula with computing and robotics
- A range of ideas for interfacing various hardware and software in the classroom

ChDuino for tinkering with the General Purpose Input/Output (GPIO) pins on Arduino board

Using GPIO pins on Arduino to interface electronic components like LEDs, buttons, photo-resistors, and sensor-based control of Linkbots, and Mindstorms NXT/EV3

“OMG!!! Like that Blockly thing was DOPE! For sure could use that! The robots weren’t too bad either…kinda fun in a super nerdy way:] “
— Brian Newmark, William Jefferson Clinton Middle School, Los Angeles USD

“Great content, very relevant, easy to understand, and I see real potential for my classes, school, and district. Currently we use the Arduino, but the interface was much better with the C-STEM Studio.”
— Paul Werner, Rocklin High School, Rocklin USD

“I was over the moon with all of the free curriculum and programs. Very well designed! I absolutely loved all the activities! They were helpful in that I get to experience what students will be doing.”
— Sara DeCuir, Hanford Elementary School District

UC DAVIS
C-STEM CENTER

For more information, please contact info@c-stem.ucdavis.edu and visit c-stem.ucdavis.edu

Date:
Monday- Tuesday
February 3 - 4
8:30am - 4:30pm

Location:
California State University,
Bakersfield
Bakersfield, CA 93311

Registration:
Cost: $300 / Teacher
$335 / Teacher (includes Arduino kit)
